To Whom It May Concern,

We learn about U.S. Veterans Rowing & Kayaking through a mutual friend and reached out to them about a possible sponsorship.

I personally met the founder and President Paul-Stephen Varszegi in Westport, Connecticut during my trip and visit with another friend.

Paul said that he was very interested in partnering with our fitness club Warrior Fitness Center to help with indoor and outdoor rowing programing.

I notified him of the upcoming Valor Games, Dallas SWEAT, Boston Crash B's, indoor ERG competitions and Invictus Games in Canada in September, 2017.

He immediately offered sponsorship for all of these activities and covered the costs for most of these events.

When we heard about his sponsorship to cover cost of travel, food and lodging for one of our top athlete's who is a leg amputee for the CRASH B's, we again reached out to him for assistance. My partner and I both also wanted to go.

He ended up inviting the co-owner and my partner at WFC, Marco Vincent Fernandez to the World Indoor Rowing Championships in Boston on February 11th and offered to pay all his expenses. I ended up coming along as well.

The next day, we all went to the competition where he quickly got all of us setup and registered. He had other disabled groups from two other States also competing.

There was seven total in our group and we ended up winning six prizes, including 2-Gold, 3-Silver and 1-third place finish.

Paul's VRK organization also sponsored our top rower Jose Luis Sanchez to go to the Wounded Warrior Trials at Nellis Air Force Base a week after the CRASH B's.

Paul and Jose did an exhibition row for the other competitors with both placing 1st and 2nd in their disability category.

We are looking forward to a long-term relationship with U.S. Veterans' Rowing & Kayaking and Paul.

We are writing this letter of support so that he can get assistance with a VA Adaptive Sports grant through the Veterans Administration.

We are need of some equipment for our growing membership of Veterans and so Paul indicated that he would help with getting some equipment through the VA Adaptive Sports grant if he was successful in getting a grant award.

If you have any further questions, please contact me at the address and number above.

Thank you for your consideration.
